

RentalPro

Latest UI Walkthrough

Covers the newest UI changes: the full-page photo login with a translucent card, the softer horizontal top navigation, the property map feature, per-section Harare photo backgrounds, the language menu with English, Shona and Arabic (laid out right to left), the tenant history per unit and the maintenance summary report, and the Harare demo data (five properties, nine tenants and Admin Abdur-Rahmaan Ali). Screenshots were taken live from the running app for every role (Admin, Property Owner/Manager, Maintenance Staff, Tenant).

Home / Login

A Harare skyline photo fills the whole page, with the RentalPro name top-left, a translucent login card in the centre, and the language menu top-right — shown open, listing English, ChiShona and Arabic, each in its own language.

Portfolio Dashboard (Admin)

Landing screen after login, signed in as Admin Abdur-Rahmaan Ali: 16 units across five Harare properties, 56% occupied. Each section now has its own Harare photo behind the page, with solid white cards and white page titles.

Tenant History per Unit

The History button on a unit lists every tenant who has occupied it, newest first — active, ended and expired leases, with national ID, dates, rent and status. Each name opens the tenant's profile. (A former tenant, Tafadzwa Gumbo, was added to the demo data for this example.)
