

RentalPro

Latest UI Walkthrough

Covers the newest UI changes: the full-page photo login with a translucent card, the softer horizontal top navigation, the property map feature, per-section Harare photo backgrounds, the language menu with English, Shona and Arabic (laid out right to left), the tenant history per unit and the maintenance summary report, and the Harare demo data (five properties, nine tenants and Admin Abdur-Rahmaan Ali). New in this edition: every screen, message and PDF is now in Arabic, and every amount shows its currency (for example USD 1,250.00). Screenshots were taken live from the running app for every role (Admin, Property Owner/Manager, Maintenance Staff, Tenant).

Home / Login

A Harare skyline photo fills the whole page, with the RentalPro name top-left, a translucent login card in the centre, and the language menu top-right — shown open, listing English, ChiShona and Arabic, each in its own language.

The background of the page is a photograph of the Harare skyline at dusk, featuring several high-rise buildings and a prominent tower with a circular top. The sky is a mix of blue and orange from the setting sun.

Tenant History per Unit

The History button on a unit lists every tenant who has occupied it, newest first — active, ended and expired leases, with national ID, dates, rent and status. Each name opens the tenant's profile. (A former tenant, Tafadzwa Gumbo, was added to the demo data for this example.)
